Professional Summary

Information Technology Associate Degree candidate at Brawijaya University with 3.87 GPA, specializing in full-stack web development and system architecture. Brings hands-on industry experience from engineering scalable web applications at Dinas Kominfo Kota Malang, alongside a strong foundation in hardware innovation and IoT development. Adept at translating complex technical requirements into user-centric digital platforms while maintaining high academic and performance standards.

Education

2024 - PRESENT | BRAWIJAYA UNIVERSITY| Associate Degree (D3) in Information Technology | 3.87

Technical Skills

- Languages & Frameworks: PHP, Laravel, JavaScript, HTML, CSS, MySQL, Python.
- Tools & Technologies: Bootstrap, AWS Cloud, Gen AI, Spec-Driven Development (Kiro), Microsoft Office Desktop.
- Core Competencies: Full-Stack Development, Database Architecture, Fleet Management Systems, System Standardization, Public Speaking.

Work Experience

Software Engineer Internship | Dinas Komunikasi dan Informatika Kota Malang | August 2026 – Present

• Architected and developed a web application from scratch, translating requirements into a scalable and maintainable system structure.

• Designed and implemented the database schema, data relationships, and storage workflows to support reliable application performance.

• Engineered responsive web features and integrated front-end and back-end functionality using modern web development practices.

Organizational Experience

Feb 2026 – Dec 2026 | INFORMATION TECHNOLOGY STUDENT ASSOCIATION (HMPSTI)
Vocational Faculty | Brawijaya University | **Head of Supervisory & Standardization Commission**
Responsible for overseeing organizational performance and ensuring all activities comply with established operational standards and regulations.
Conducted regular evaluations and quality control to maintain high-performance standards across all departments.

Selected Projects

Malang Mbois – Web Application Migration **Internship Project**
Laravel, PHP, MySQL, Bootstrap

- Recreated the "Malang Mbois" application, originally an Android-exclusive platform, into a fully responsive website during an internship at Dinas Kominfo Kota Malang.
- Migrated and developed the web platform using the Laravel framework, modernizing the application's architecture and expanding its reach to users across all devices (desktop, tablet, and mobile).

Kampoeng Kadjoetangan Heritage – E-Tourism **Academic / Personal**
Laravel, PHP, MySQL, Bootstrap

- Developed an e-tourism web platform to promote Kampoeng Kadjoetangan Heritage as a cultural tourism destination in Malang, providing information about attractions and articles.
- Designed and integrated a ticket purchasing system to streamline the booking process for tourists.
- Built an interactive and user-friendly interface to display heritage information and boost visitor engagement effectively.

MineFleet – Fleet Management & Vehicle Booking Platform **Academic / Personal**
PHP, MySQL, Bootstrap, JavaScript

- Developed a web-based platform to monitor and streamline the utilization of corporate operational vehicles, handling transport bookings and multi-level approvals.
- Created an interactive dashboard displaying real-time fleet statistics, active drivers, monthly usage charts, and analytical insights on frequently used vehicles.
- Implemented a periodic reporting system equipped with date and status data filtering alongside direct Excel export functionality.

TaskMate – Productivity & Activity Management Platform **Academic / Personal**
JavaScript, HTML, CSS

- Developed a web-based productivity platform designed to help users organize daily activities efficiently by setting priorities, tracking deadlines, and monitoring progress.
- Created an intuitive dashboard that displays user profiles, task statistics, active tasks, and completed tasks.
- Implemented core task management features enabling users to easily add, update, and track the progress of their assignments.

Committee Experience

Head of Event Division | PKKMB, Krida Mahasiswa 1,2,3 & Open House Faculty of Vocational Studies | BrawijayaUniversity | Aug 2025 – Nov 2025
Enhanced event visibility on social media, achieving significant engagement on platform X and maintaining high participant satisfaction rates.
Coordinated the planning and execution of large-scale event series for thousands of freshmen, collaborating effectively with various divisions, student organizations, and faculty committees.
Vice Head of Event Division | Abdi Desa Faculty of Vocational Studies | Brawijaya University | 2025
Revolutionized the grand finale concept by integrating innovative performance elements that had never been implemented in previous years.
Established a new benchmark for future community service events, evidenced by exceptional feedback and increased engagement between students and villagers during the 4-week program.

Master of Ceremony Experience

Master of Ceremony | Abdi Desa Grand Finale Faculty of Vocational Studies | Brawijaya University | 2025
Served as the lead MC for the grand finale, ensuring clear communication and providing engaging entertainment for a diverse audience of students and local villagers.
Collaborated closely with the event division to maintain a smooth program flow in accordance with the rundown, successfully eliminating any "dead-air" moments.
Master of Ceremony | Joint Easter Celebration (PMK Vokasi x GBI x Level Up Blitar) Malang, East Java | 2026
Facilitated a large-scale collaborative event, maintaining a balance between a solemn atmosphere and high-energy engagement for cross-organizational audiences.
Actively communicated in real-time with technical teams and committees from three different institutions to align on-field agenda adjustments.
