Summary

Highly motivated Information Technology student at Universitas Brawijaya with a strong passion for public speaking, leadership, and technical innovation. With over 3 years of active involvement in organizational leadership and event management, I have developed exceptional skills in time management, critical analysis, and crisis handling. A versatile individual committed to delivering high-quality contributions and driving impactful results in every role.

Education

2024 - PRESENT | BRAWIJAYA UNIVERSITY| Associate Degree (D3) in Information Technology |
2021-2024 | STRADA BHAKTI WIYATA SENIOR HIGH SCHOOL | Natural Sciences (MIPA) | Score: 87

Organizational Experience

Feb 2026 – Dec 2026 | INFORMATION TECHNOLOGY STUDENT ASSOCIATION (HMPSTI)
Vocational Faculty | Brawijaya University | Head of Supervisory & Standardization Commission
Responsible for overseeing organizational performance and ensuring all activities comply with established operational standards and regulations.
Conducted regular evaluations and quality control to maintain high-performance standards across all departments.

Oct 2024 – Dec 2024 | STUDENT EXECUTIVE BOARD (BEM) Faculty of Vocational Studies | Brawijaya University | Best Intern Staff | Human Resources Development (HRD)
Awarded "Best Intern Staff" for exceptional performance and contribution to human resource development initiatives.

Selected Projects

Kampoeng Kadjoetangan Heritage – E-Tourism
Website Laravel, PHP, MySQL, Bootstrap
Developed an e-tourism web platform to promote Kampoeng Kadjoetangan Heritage as a cultural tourism destination in Malang. The website provides information about heritage attractions, articles, ticket purchasing, and interactive user features to improve visitor engagement.
Designed and integrated a ticket purchasing system to streamline the booking process for tourists.
Built an interactive and user-friendly interface to display heritage information and articles effectively.

TaskMate – Productivity & Activity Management Platform
JavaScript, HTML, CSS
Developed a web-based productivity platform designed to help users organize daily activities efficiently. The application allows users to set task priorities, track deadlines, and monitor progress to enhance daily productivity.
Created an intuitive dashboard that displays user profiles, task statistics, active tasks, and completed tasks.
Implemented core task management features enabling users to easily add, update, and track the progress of their assignments.

MineFleet – Fleet Management & Vehicle Booking Platform

PHP, MySQL, Bootstrap, JavaScript

Developed a web-based fleet management and vehicle booking platform designed to monitor and streamline the utilization of corporate operational vehicles. The application enables administrators to manage transport bookings, process multi-level approvals, track fuel consumption, and monitor vehicle maintenance schedules efficiently.

Created an interactive dashboard that displays real-time fleet statistics, including total vehicles, active drivers, monthly usage charts, and analytical insights on the most frequently used vehicles.

Implemented a comprehensive booking management module and a periodic reporting system equipped with date and status data filtering alongside direct Excel export functionality.

Integrated fuel consumption tracking and service schedule monitoring features to optimize routine fleet maintenance and improve operational cost efficiency.

Committee Experience

Head of Event Division | PKKMB, Krida Mahasiswa 1,2,3 & Open House Faculty of Vocational Studies | BrawijayaUniversity | Aug 2025 – Nov 2025

Enhanced event visibility on social media, achieving significant engagement on platform X and maintaining high participant satisfaction rates.

Coordinated the planning and execution of large-scale event series for thousands of freshmen, collaborating effectively with various divisions, student organizations, and faculty committees.

Vice Head of Event Division | Abdi Desa Faculty of Vocational Studies | Brawijaya University | 2025

Revolutionized the grand finale concept by integrating innovative performance elements that had never been implemented in previous years.

Established a new benchmark for future community service events, evidenced by exceptional feedback and increased engagement between students and villagers during the 4-week program.

Master of Ceremony Experience

Master of Ceremony | Abdi Desa Grand Finale Faculty of Vocational Studies | Brawijaya University | 2025

Served as the lead MC for the grand finale, ensuring clear communication and providing engaging entertainment for a diverse audience of students and local villagers.

Collaborated closely with the event division to maintain a smooth program flow in accordance with the rundown, successfully eliminating any "dead-air" moments.

Master of Ceremony | Joint Easter Celebration (PMK Vokasi x GBI x Level Up Blitar) Malang, East Java | 2026

Facilitated a large-scale collaborative event, maintaining a balance between a solemn atmosphere and high-energy engagement for cross-organizational audiences.

Actively communicated in real-time with technical teams and committees from three different institutions to align on-field agenda adjustments.
